WHMIS REFRESHER

All employers in Canada are required, by law, to provide WHMIS training to workers who work with, or in proximity to controlled products. Workers may be required to work with hazardous materials that are new to the workplace, or previously installed - requiring repair, maintenance or removal.

Handling hazardous materials requires effective handling procedures, personal protective equipment and most importantly, training. Training must be provided: to new employees; when new products arrive in the workplace; and **at least annually, as a review.**

Training Solution – Online WHMIS Refresher Course

Link2eLearning provides an online **REFRESHER** course that will **review** the concepts of WHMIS. Similar to the Link2eLearning **WHMIS – An Introduction** course, the 40 minute refresher course offers condensed WHMIS information, for the purposes of an annual review.

Course Overview

By taking **WHMIS Refresher**, participants will:

- Review legislation regarding WHMIS
- Identify the 6 classes and 8 symbols of controlled products
- Determine how hazardous substances can enter the body
- Examine the roles and responsibilities of the employer, supplier and the worker
- Distinguish between supplier and workplace labels
- Review the various sections of a Material Safety Data Sheet
- Examine control measures, including “at the source”, “along the path” and “at the worker”

Online Course Offers Convenience and Efficiency

These courses are powered by the **Link2eLearning** LMS (Learning Management System), so you can track course progress and completion. Each training solution provides quizzes, a final exam and a course completion certificate.
